[NAFTA-00646 et al.]

Pacific Power a/k/a PacifiCorp, a/k/a Utah Power, Casper, Wyoming, and Other Locations Within Wyoming and Other Locations Within Various States; Amended Certification Regarding Eligibility To Apply for NAFTA Transitional Adjustment Assistance

In accordance with Section 250(a), Subchapter D, Chapter 2, Title II, of the Trade Act of 1974, as amended (19 U.S.C. 2273), the Department of labor issued a Certification for NAFTA Transitional Adjustment Assistance on December 1, 1995, applicable to all

workers of Pacific Power, located in Casper, Wyoming, and operating at various locations in the State of Wyoming. The notice was published in the Federal Register on January 26, 1996 (61 FR 2538).

At the request of the company, the Department reviewed the certification for workers of the subject firm. New information provided by the company shows that worker separations have occurred at other production facilities of the subject firm at various locations within the States of Washington, Oregon, California, Montana, Idaho and Utah. The workers are engaged in employment related to the production of electrical power. The company reports that PacifiCorp was formed to combine Pacific Power and Utah Power.

Consequently, some of the workers may have had their Unemployment Insurance (UI) wages reported under either PacifiCorp, Pacific Power or Utah Power tax accounts. Other findings show that workers of Pacific Power in Centralia, Washington are covered under an existing NAFTA-TAA certification, NAFTA-00655, and are specifically excluded from this amendment.

The intent of the Department's certification is to include all workers of the subject firm who were adversely affected by increased imports from Canada or Mexico. Accordingly, the Department is amending the certification to reflect that in addition to Pacific Power, the workers UI wages may have been paid under PacifiCorp or
